Invitation

Respected Sir/Madam,

It is our great pleasure to inform you that the Department of Political Science, Department of Economics, and Department of Education, Hatching College, are jointly organizing a National Seminar on the theme:

“Digital India as the Backbone of Vikshit Bharat@2047.”

The seminar intends to provide a scholarly platform for academicians, researchers, policymakers, and students to engage in critical discussions on the role of Digital India in shaping a developed, inclusive, and self-reliant nation by 2047.

We would like to invite you to participate and contribute your valuable insights to help this academic discourse.

With regards

Mr. Luit Hazarika

principal & Chairperson

National Seminar Organising Committee

About the organizing College

Hatching College was established in 1988 in the Hatching area of Nagaon district, Assam. It was founded to provide higher education opportunities to the students of the surrounding mouzas (localities), including Hatching, Silpukhuri, and Mikirbheta. Located in a semi-rural region of Assam, the college plays a vital role in enabling access to higher education for students from the neighbouring rural and semi-urban areas. In 2023, Hatching College was accredited by the National Assessment and Accreditation Council (NAAC) with a B++ grade, having achieved a CGPA of 2.81 on a 4-point scale.

About the Seminar

India stands at a critical juncture in its developmental journey as it aspires to become a Vikshit Bharat (Developed India) by 2047, marking 100 years of independence. In this transformative vision, Digital India Initiatives has emerged as a foundational pillar that connects economic growth, social inclusion, effective governance, quality education, and cultural preservation. Digital technologies have the potential to bridge long-standing gaps between rural and urban areas, empower marginalized communities, enhance transparency in governance, and create new opportunities for innovation and employment.

Over the past decade, initiatives such as e-governance platforms, digital financial services, online education, digital health, and the promotion of indigenous languages through technology have significantly reshaped India's socio-economic landscape. However, achieving the vision of Vikshit Bharat@2047 requires critical reflection on the opportunities, challenges, and policy directions associated with digital transformation.

This seminar aims to provide an interdisciplinary platform for academicians, researchers, policymakers, teachers, and students to deliberate on the role of Digital India in shaping a developed, inclusive, and self-reliant nation by 2047.

The main Theme of the Seminar

**Digital India as the Backbone
of Vikshit Bharat@2047.**

Sub Themes

- Digital Education and Online Learning Platforms
